

For Data AI Business

Analyst Assignment

What I learned

My Approach

→ Read first understand

→ Used AI for learning

→ Verified Calculations

Key Takeaway.

"Numbers are important, but understanding the business problem is more important."

* Thing I learned

- ROAS & ACOS are Connected
- TACOS shows long term health
- Reports can effect client trust
- Business thinking > only calculations

look for patterns

look for pattern across task

focused on logic
not memorization
